"Fixation of the mind
to a single object (One-

This is Concentration.

Buddha

For this reason, Subhuti,
the minds of all Budd-
-hisattvas should be puri-
-fied of all such concep-
-tions as related to seeing,
hearing, dusting, smelling,
touching and discrimination-

-ting. They should use the
mental faculties spontane-
-ly and naturally, but
unconstrained by any
preconception arising from
the sense.

Buddha

wholly devoid of concep-
-tions and therefore recog-
-nizes neither unity nor
diversity.
